

**DANNY PEZZOTTA**

## **PARENT TECH WORKSHOP:** **Network Protection & Tech Tips for Home and Personal Device Use**

Do you know what all your hardware does for your home computing system?  
Do you know how you can beef up defenses to protect against online intruders?  
What systems are there that can reduce the likelihood of your child making poor online decisions?  
If you want to know the answer to these questions and more, please join Danny Pezzotta from PlanetBravo and learn about the devices in your home and in your hand and take home age-appropriate strategies you can implement for technology use in your family.

Danny Pezzotta is a technology educator, a California certified teacher, and founder of PlanetBravo. Danny works with K-8 students and consults on technology programs for school districts in Northern and Southern California. Danny has been recognized with innovation awards by district, state, and national organizations. PlanetBravo's mission is to provide students with fun, confidence boosting experiences that allow children to explore, study, and share multimedia technology.
